CEO: Dave Steele
Operations Manager: Lisa Carleton-Long
Project Manager: Brett Long

To the Members of Bridgehaven,

We would like to clear some issues up with you all regarding the use of the spit. We here at Rock Point Oyster Company do not have any issues with any of you walking on the spit and using the spit for your annual treasure hunt and any other events. We have recently added several NO TRESPASSING signs (that are constantly being pulled out) mostly for boaters and/or campers who land on the property for personal use. Those are the people we do not want walking or picnicking on the property. They tend to abuse the land and leave a mess or steal from RPO. To further make it clear, we do NOT however allow for any person to dig clams or pick up oysters off the spit that RPO farms. This is a commercial farming business, not a public beach. To further clarify an issue, please be aware of pets when walking them on the spit around the oyster beds or clam beds. Please do not let them go to the bathroom on or near the product because this could contaminate the product that is being raised for human consumption.

If you have any questions or concerns, please don't hesitate to call us at the office. The telephone number is listed above, and you may speak to any of the people listed above.

Thank you for your time and cooperation.

Sincerely,

Lisa Carleton-Long

Rock Point Oyster Company
